NEW

Community Legal Education Ontario (CLEO) announces the publication of our **Facilitator’s Guide: Introducing front line workers to CLEO’s legal rights handbook.**

This companion piece to CLEO’s recently revised publication “Do you know a woman who is being abused? A Legal Rights Handbook” is designed to help agencies conduct a half-day training to familiarize their staff and volunteers with the contents of the handbook.

The Facilitator’s Guide provides step-by-step speaking notes for agency staff facilitating training sessions and includes exercises that look at issues raised in hypothetical situations as well as handouts for participants (shelter/agency staff and volunteers).

We are pleased to be able to offer one Facilitator’s Guide free of charge to not-for-profit community-based agencies. If you would like to receive a Guide, please fill out the form and return it to us by mail, fax or email.

CLEO gratefully acknowledges funding for this project from the Department of Justice Canada.
